

Co-Educational Day and Boarding School

HUNTINGTOWER

Huntingtower is one of the top academic co-educational schools in Victoria with an innovative approach to learning.

We place a strong emphasis on Christian values and developing the skills our students need to excel in the dynamic and changing world of the 21st century.

What happens
Middle in our
& Senior
School

“The time for thinkers has come.”

Mary Baker Eddy

Creativity and Innovation

At Huntingtower, understanding is all important, as it goes beyond knowing. Harvard University's 'Teaching for Understanding Framework' (TfU) enhances the Middle and Senior School curriculum and encourages our students to use a range of strategies: collaborative learning, reflection, the cross-disciplinary connection of concepts, the use of technologies and the application of thought-provoking tasks.

Teaching for Understanding

The logo for 'Teaching for Understanding' features four spheres in yellow, pink, blue, and purple, arranged in a circle and connected by several curved lines that suggest movement and interconnectedness.

Middle School

Years 7 – 9 are a time of transition, growth and development. As a consequence, the Middle School curriculum emboldens our students to embrace new learning styles and take intellectual risks. Integrated Studies is important, as it encourages our students to learn independently and solve real-life issues in imaginative and creative ways.

Senior School

While students in Years 10 – 12 discover that the challenge of the VCE gives a new momentum to their studies, we encourage everyone to participate in the wide range of school activities offered.

Huntingtower graduates speak warmly of the sense of unity and support offered by the entire school community and of the excellent and dedicated teachers. Our environment is both nurturing and stimulating. Everyone is inspired to give of their very best and we are proud of our VCE results, which are consistently amongst the highest in the state.

Fostering Leadership

Our Middle and Senior School students are encouraged to demonstrate that they are 'a force for good' in our world. Within the school, many leadership opportunities have been developed, and on a local level, students fund-raise and volunteer for a wide range of community organisations, including the Duke of Edinburgh Award scheme.

We believe our students have no limits, and a wonderful example of this is Huntingtower's Simunye Project in South Africa, which is open to students in Years 11 and 12. While participation in the project requires hard work and dedication, the rewards are many and include the joy that comes from helping others and an increased awareness of the power of the individual to help change our world for the better.

Caring for the individual

Huntingtower's pastoral care program ensures that all our students feel loved, respected and valued. Daily interaction with mentors provides students with on-going support, and Year Level Co-ordinators and Heads of House assist each student to develop into a confident and successful young adult. ESL and Learning Enrichment are available, and a careers program for Year 10 – 12 students guides them in their decisions about tertiary placements.

Teamwork and Competition

Huntingtower competes keenly in interschool sport and is proud of its success against many much larger schools. The Huntingtower Heat Basketball and the Huntingtower Swimming clubs are popular with many students, while others enjoy the debating and public speaking competitions run in conjunction with the Debating Association of Victoria.

Each year level has a specially tailored outdoor education camp: the Mornington Peninsula (Year 7), the Grampians (Year 8), the Alpine National Park (Year 9) and the Glenelg River (Year 10). The Year 11 camp in the desert environment of Plumbago, Broken Hill, is a pinnacle of students' outdoor education experiences at Huntingtower.

The Arts

The Arts are an important part of Huntingtower life. A musical or play, the Student Art Exhibition, the House Music Competition and the Middle School's 'Dansation' are all highlights of the school year. An extensive Music program includes orchestras, choirs and chamber choirs, string orchestras, concert and stage bands and brass, woodwind and string ensembles. International tours run regularly, with a language, cultural or musical focus.
