8 March 2013

Dear Parents of Huntingtower Year 10 Students

Australian Informatics Competition
Thursday 9th May 2013

Students of Year 10 Mathematics are invited to participate in the Australian Informatics Competition which will be held on Thursday 9th May 2013, during their Maths lesson.

What is Informatics?: Informatics is the science underlying computing, communication and the Internet. Alternatively, informatics is the study of the structure and behavior of natural and artificial systems that generate, process, store, and communicate information.

What is the AIC?: The Australian Informatics Competition (AIC) is a one-hour problem-solving competition which seeks to identify computer programming potential. It is an ideal activity for students of Mathematics.

As places are limited, I encourage students who are interested to return the slip below to myself as soon as possible and definitely prior to Monday 18th March.

Yours sincerely

Mrs Julie Buntz
Head of Mathematics

Please return to the Head of Mathematics – Mrs J Buntz by Monday 18th March 2013 (places are limited)

Dear Mrs Buntz

I give my permission for my son/daughter ____________________________ in Year _________ to participate in the Australian Informatics Competition and I understand that $5.50 will be added to the school account.
